Flexible Learning: All the Time, Everywhere

DIWA Educational Resources for S.Y. 2021-2022

Find out how our educational resources can make teaching and learning happen in school, at home, or anywhere!
We are Diwa Learning Systems Inc., the leading provider of print and digital K-to-12 educational resources in the Philippines.

ABOUT DIWA

Through our wide range of educational resources, we help teachers fulfill their duty at the frontlines of nation-building; students to become active contributors to the country’s progress; and schools to create a teaching and learning environment that defies any boundaries.

We are Diwa. We make teaching and learning possible all the time, everywhere.
OVERVIEW

The COVID-19 pandemic has presented extraordinary challenges in the education sector, and no one knows when it will end. Even though the reality of this means much uncertainty still lies ahead, one of the things that remains the same is the fact that education must continue.

While the shift from in-school to remote learning has been abrupt and unprecedented, we at Diwa have been more than ready to serve the needs of our stakeholders by offering digital and printed learning resources that are designed to make teaching and learning happen in the classroom, at home, or anywhere.

WHAT’S INSIDE?

1. **Diwa Textbooks**
   Make teaching and learning more fun and engaging with Diwa Textbooks, made even better by its breakthrough interactive digital format and other notable features.

2. **Supplemental Educational Magazines**
   Provide students with additional knowledge with Diwa’s Supplemental Educational Magazines that offer an abundance of interactive, thematic, and high-interest content to support your curriculum.

3. **Genyo e-Learning**
   Make meaningful learning experiences within and beyond the classroom with the power of Genyo e-Learning, the learning management system of choice of hundreds of innovative schools nationwide.

4. **Diwa Checkbox**
   Redefine student learning with our gamified assessment portal that features a vast collection of drills and activities in five major subject areas—all aligned with the K-to-12 curriculum.
What is Diwa Preview?

Diwa Preview is our online product evaluation facility which allows schools to evaluate our Diwa Textbooks and Supplemental Educational Magazines at home through our learning management system, Genyo e-Learning.

Not yet subscribed to Diwa? Let’s talk!

For non-Diwa subscribing schools who would like to evaluate our products online, send us a message at info@diwamail.com. Kindly provide us your complete name, complete school name, designation, email address, and contact number.

Qualified schools will be contacted by our sales representatives and will be given login credentials that they may use to access our digital evaluation copies.

What Do You Need to Access Diwa Preview?

- Laptop/Desktop/Tablet
- Stable Internet Connection
- Genyo E-Learning Account Access Credentials (i.e., school ID, login ID, and password ID) will be given by the sales representative assigned to your school.
Create authentic learning experiences that work with Diwa Textbooks!

The COVID-19 pandemic has challenged conventional principles and practices on teaching and learning. While many schools are moving towards the adoption of digital learning tools and platforms, it is just as important that they be supported by next-generation textbooks that provide a roadmap for grade and subject-specific knowledge attainments.

Staying true to our brand promise of innovation in education, we have revolutionized our textbooks to make it more interactive, reader-friendly, attainable, innovative, and flexible.

To know more about Diwa Textbooks, contact the Diwa Sales Representative assigned to your school.
What’s new on Diwa Textbooks?

**Interactive Digital Format**

To make learning more fun and engaging for students, we are proud to introduce our Interactive Digital Textbooks or electronic versions of our Diwa Textbooks with additional interactive features. Each learning material is broken down into digestible, easy-to-browse modules that incorporate visual elements such as images, graphs, charts, illustrations, or diagrams. Each module also includes up to ten (10) interactive and gamified quizzes to help teachers assess their learners’ progress.

They are available for grade school up to senior high school, and can be accessed through Genyo e-Learning, the first learning management system in the country.

To know more about Diwa Textbooks, contact the Diwa Sales Representative assigned to your school.

---

**Interactive and gamified quizzes**

**Modules with visual elements such as images, graphs, charts, illustrations, or diagrams**

**A text-to-speech feature for stories**

INTRODUCTION OF DESIGN THINKING AS A LEARNING APPROACH

To encourage innovative thinking and creative problem solving in teachers and students, we have introduced the concept of design thinking as a learning approach by integrating it in the lessons and activities found inside the new and upcoming titles of Diwa Textbooks.

By doing such, we aim to contribute to the development and acquisition of 21st-century skills among educators and learners.

To know more about Diwa Textbooks, contact the Diwa Sales Representative assigned to your school.

ADDITIONAL CONTENT IN DIWA LEARNING TOWN

Teachers and students can access additional learning materials and activities found at Diwa Learning Town (www.diwalearningtown.com), a digital resource portal that contains educational resources in different subject areas.

To know more about Diwa Textbooks, contact the Diwa Sales Representative assigned to your school.
What’s new on Diwa Textbooks?

FOR CLASSROOM LEARNING

Teachers can maximize the activities found in the textbooks to assess if students have learned something after a discussion.

It gives students an opportunity to explore concepts and principles on the different topics presented in the textbook.

FOR REMOTE LEARNING

Teachers can assign to his/her students the activities found inside the textbook during asynchronous learning sessions.

Diwa Textbooks can be used as a primary resource material of students during modular distance learning.

FOR CLASSROOM AND REMOTE LEARNING

Diwa Textbooks provide educators with a detailed and chronological sequence of teaching procedures that he/she may implement in delivering lectures and assigning activities.

TO KNOW MORE ABOUT DIWA TEXTBOOKS, CONTACT THE DIWA SALES REPRESENTATIVE ASSIGNED TO YOUR SCHOOL.

diwalearningsystems  http://www.diwa.ph
Optimize student learning with Supplemental Educational Magazines!

Finding ways to make classroom and remote learning fun is a constant challenge for teachers. Educational magazines are useful supplementary tools that can help educators accomplish this goal.

TO KNOW MORE ABOUT SUPPLEMENTAL EDUCATIONAL MAGAZINES, CONTACT THE DIWA SALES REPRESENTATIVE ASSIGNED TO YOUR SCHOOL.
Optimize student learning with Supplemental Educational Magazines!

Diwa’s Supplemental Educational Magazines (SEMs), available in both print and digital (can be accessed via Genyo e-Learning and Diwa Learning Town), are learning tools that are as informative as textbooks, but are more appealing and less intimidating to students because of their format.

What makes SEMs effective tools for instruction is its capability to deliver manageable chunks of information that leads to higher retention. They provide students and teachers with segmented background knowledge on certain topics and information that are accessible and easy to absorb and learn.

With lack of engagement as arguably the biggest hurdle to student learning, we have integrated up to two (2) interactive quizzes that come in three types: true or false, multiple choice, and single choice in the digital version of our SEMs. We also added two (2) featured videos per magazine to make the lessons more concrete and visual for students.

We’ve also introduced augmented reality (AR) to the junior high school level of Bato Balani for Science and Technology magazine through Diwa SPARK, a mobile application that can be downloaded in Google Play Store.

To know more about Supplemental Educational Magazines, contact the Diwa Sales Representative assigned to your school.
Optimize student learning with Supplemental Educational Magazines!

Given the enhanced accessibility and enriched interactivity of SEMs, we are confident that they will make a difference in student learning, regardless whether they are used in the classroom and remote learning.

**HOW CAN SEMS BE EMPLOYED IN CLASSROOM LEARNING?**
- Teachers can integrate in their lesson plan the articles and activities found in SEMs. It can help them save time in doing research to be able to design effective learning experiences. Each magazine comes with a Teacher’s Guide and Editorial Content.
- Students can share and discuss in class their insights and opinions on relevant social issues presented in the magazines.
- Students may be asked to collaborate with each other through group activities in the magazines.

**HOW CAN SEMS BE UTILIZED IN REMOTE LEARNING?**
- Teachers can assign to his/her students the activities found in the magazine during asynchronous learning sessions.
- Teachers may ask his/her students to create journal entries and reflection papers based on the articles present in the magazines.
- Students may refer to the different sections of the magazines and use them as additional reference for their assignments and other requirements.
- Students can be encouraged to explore and read articles and trivia that pique their interest.

**HOW CAN SEMS BE BENEFICIAL IN CLASSROOM AND REMOTE LEARNING?**
- SEMs allow teachers to enrich their lessons with engaging and interactive subject-specific content.
- SEMs inspire students to develop love for reading and learning by offering them short, age-appropriate, and informative articles and activities.

To know more about Supplemental Educational Magazines, contact the DIWA Sales Representative assigned to your school.
Ensure Integrity of Assessment with **DIWA CHECKBOX**

Diwa’s online gamified assessment portal

Assessment is a fundamental feedback mechanism in education. It allows all stakeholders involved in the learning process to understand what is being learned and where learning resources need to be focused.

Before the COVID-19 pandemic, assessments had been strongly dependent on students’ physical presence. But as the mode of instruction transitioned from face-to-face to remote, schools were obliged to adopt and develop alternative approaches and tools in carrying out the critical function of assessment.

To know more about Checkbox, visit www.diwa.ph/checkbox, or contact the DIWA sales representative assigned to your school.
For a growing number of schools in the country, they turned to Checkbox, our gamified online assessment portal that works for both classroom and remote learning. It features a vast collection of drills and activities for Science, Mathematics, English, Filipino, and Araling Panlipunan—all aligned with the K-to-12 curriculum.

**FOR CLASSROOM LEARNING**
- It provides teachers and students with a blended learning environment.
- It can be used in conducting quizzes and seatworks.
- It promotes an efficient and effective way for teachers to craft other learning activities based on student assessment results.
- The gamified system gives students a welcome break from classroom discussions.

**FOR REMOTE LEARNING**
- It allows teachers to create pre- and post-assessment exams and exercises that students can accomplish during asynchronous learning sessions.

**FOR CLASSROOM AND REMOTE LEARNING**
- It gives teachers an idea of whether or not their educational objectives are met through the system’s capability to monitor real-time insights on students' performance.
- It helps teachers identify topics and skills which their students are learning progressively, and those with which they still struggle. That way, they may create tailored drills and exercises that are in line with the learning demands of students.
- It promotes subject mastery and self-directed learning among students given that Checkbox can be accessed anytime, anywhere, and on any device.
- It creates a productive virtual interaction among learners through the Checkbox Leaderboard that determines their ranking in class, in a specific grade level, and in the entire school.

To know more about Checkbox, visit www.diwa.ph/checkbox, or contact the Diwa Sales Representative assigned in your school.
Learn anytime and anywhere with Genyo e-Learning

E-learning has been around for a while but it has never been as relevant as it is today. Schools need to have a tool that can support their delivery, assessment, and organization of learning within and beyond the four walls of the classroom.

Being in the education space for more than 15 years now, Genyo e-Learning has proven its position as the leading and most trusted learning management system of choice for hundreds of innovative schools nationwide. It is a secure and pedagogically-driven learning platform for different implementations.

To know more about Genyo e-Learning, visit www.diwa.ph/Genyo-eLearning, or contact the DIWA sales representative assigned to your school.
With the various tools and additional resources found inside the system, Genyo e-Learning guarantees its suitability and effectiveness both in classroom and remote instruction.

What's in it for TEACHERS?

**For Classroom Learning**
- Teachers can integrate the ready-made lesson packages found inside Genyo e-Learning, thus saving them time in preparing materials for lectures and discussions.

**For Remote Learning**
- Teachers are given access to curriculum-based, interactive, and digital resources for English, Science, Mathematics, Filipino, and Araling Panlipunan which they can use for synchronous and asynchronous learning sessions.
- The platform also contains the following collaboration tools that teachers can maximize in assessing and monitoring student performance:
  1. Survey
  2. Blog
  3. Forum
  4. Announcement Board
  5. Message Board

**For Classroom and Remote Learning**
- Apart from the ready-made resources, Genyo’s learning management system tools let teachers create digital lessons, and online tests and generate feedback in real-time. A teacher can assign the test from his/her own home or at school, and students can answer the test whether in school or from their homes.
- Teachers can monitor which students have not answered a lesson or test through his/her own teacher account. With this, the teacher can immediately see students’ progress on the tasks assigned to them.

To know more about Genyo e-Learning, visit www.diwa.ph/genyo-e-learning, or contact the Diwa Sales Representative assigned to your school.
With the various tools and additional resources found inside the system, Genyo e-Learning guarantees its suitability and effectiveness both in classroom and remote instruction.

What’s in it for STUDENTS?

**FOR CLASSROOM LEARNING**

- Students can answer quizzes and activities whenever classes are conducted inside the computer laboratory.

**FOR REMOTE LEARNING**

- Students can learn safely at home by accessing lessons, activities, and electronic tests assigned by their teachers.
- Students can access Genyo e-Learning in any device—whether it’s desktop, laptop, tablet, or mobile.
- The learning management system enables students to submit their assignments and other requirements online.

**FOR CLASSROOM AND REMOTE LEARNING**

- Students are given access to additional resources such as the digital format of Piling Akda titles and some literary classics.
- The platform also provides students an opportunity to explore the world through Diwa Virtual Field Trips, a collection of virtual tours both local and overseas.

To know more about Genyo e-Learning, visit www.diwa.ph/genyo-elearning, or contact the DIWA sales representative assigned to your school.
With the various tools and additional resources found inside the system, Genyo e-Learning guarantees its suitability and effectiveness both in classroom and remote instruction.

**What’s in it for PARENTS?**

*Genyo e-Learning lets children learn in a safe digital space!*

We at Diwa Learning Systems Inc. respect the privacy of our stakeholders, and are committed to protecting the privacy, confidentiality, and security of the personal data they provide to us when accessing [www.genyo.ph](http://www.genyo.ph). We are aware of our responsibilities to protect their personal data, to keep it secure, and comply with the Data Privacy Act of 2012 (“DPA 2012”) and other applicable privacy and data protection laws.

**What’s in it for SCHOOL ADMINISTRATORS?**

*Genyo e-Learning allows school administrators to manage the e-learning usage of the school through learning management system reports and tools.*

The learning management system can also be used to foster an e-learning community through inter- and intra-school programs like Automated Elections, School Services Evaluations, and educational contests.

To know more about Genyo e-Learning, visit [www.diwa.ph/genyo-elearning](http://www.diwa.ph/genyo-elearning), or contact the Diwa sales representative assigned to your school.

WHAT OUR SCHOOLS ARE SAYING?

Ms. Jean Roselle P. Calderon
Math Teacher and
Genyo Coordinator at
Caterina Cittadini School

“Genyo e-Learning provides real-time feedback during assessment and has a lot of ways to develop collaboration among the students. Using the platform also enables me to assign differentiated learning activities and even reviewers for my students.”

Mr. Roy K. Pavericio

“I see Genyo e-Learning as a support system in my mission to educate the youth. I admire how it allows my students to be more aware and responsible for their progress.”

Mr. Marvin Cris B. Sollodin
Science Teacher at Escuela de
Sophia of Caloocan Inc.

“The survey feature of Genyo e-Learning has helped me in terms of getting valuable insights about the collective student behavioral patterns in our institution. The administration of digitized entrance examination was yet another huge leap of revolution in our school. Not only does it allow me to spare my time from checking responses and interpreting results, but it also gives the test-takers fun and engaging experience particularly when using a mobile device.”

Mr. Demuel O. Montejo
Guidance Counselor at
Academiate San Miguel Arcangel
